CHRONOGRAPH WATCHES FOR RACES.

THE new Pocket CHRONOGRAPH WATCH, INVENTED and MANUFACTURED by Messrs. F. L. & Co., is not only the BEST, but also the CHEAPEST ever offered for sale.

The Watch had a marked success at the Bombay Races in January last, and also at the Secunderabad, Mhow, Meerut, and Calcutta Races, and Gentlemen connected with Racing will be glad to learn that a fine supply is again to hand.

IN GERMAN SILVER CASE	...	...	...Rs. 80
„ FINE	„	...	... „ 85
„ 18-CARAT GOLD	„	...	... „ 150

Description :—The Watch is middle-size, keyless, patent lever, crystal glass front and back, going 32 hours.

There are two dials, one in front with the hour, minute, and short second hands, the other is on the back of the watch divided in seconds and fractions of a second. Over it runs the long second or chronograph hand. This dial is cut out from the centre up to near the seconds, having the whole chronograph mechanism visible to the eye.

On pressing on the winding nut the second hand will start from the fig. 12, on pressing again the hand will stop immediately, on pressing a third time the hand will fly back to the starting point. In a case of false start this peculiarity of the watch is invaluable.

We guarantee the watch to regulate within a few seconds in 24 hours, the difference in time for 5 minutes being therefore only from 0·02 to 0·05 of a second, a result impossible to arrive at with chronographs going only from 15 minutes to 2 hours.

COMMERCIAL INTELLIGENCE

FRIDAY EVENING, JAN. 21.

A CONSIDERABLE improvement has taken place in our market for imports this week, more perhaps in tone than values, but although importers may still see a margin against fresh operations, it is satisfactory to find a material increase showing in the actual off-take of goods, as from no other source can a permanent improvement be anticipated. Exports latterly have not been particularly active, in fact, were we now further advanced in the season the present scale of operations would fall nothing short of dulness, and a very frequent remark is, "how little there is doing." People who express this view, however, do not allow sufficiently for the fact that we are as yet only in the third week of the year; and they also overlook the figures which show that both in receipts and shipments of produce, January will prove a comparatively active month. If the next five months, indeed, turn out as well in proportion—and we see no reason with the crops we have to receive why they should not—the season will not falsify the early favourable anticipations we, with others, have expressed regarding it. One adverse feature, we regret, we have to notice is the retrograde policy adopted by the G. I. P. Railway authorities in advancing materially and practically, without previous notice, their carrying rates for Seeds and Grain. The loss to traders who have contracted largely for the new crops will be very heavy, and the actual injury which must result to a trade that can only go forward under the most favourable conditions of transit must be still more serious and general. It is greatly to be hoped that the Directors will perceive the mistake they are making, and at least postpone the movement, as a careful study of the situation will show that anything tending to injure exports reacts with almost equal force on the import trade which they are so anxious to foster. Steamer freights homeward contrary to previous expectations continue very firm, and although engagements are being made for future shipment at 35s., the ready rate to-day for Liverpool is 37s. 6d. per ton, nor does the supply of tonnage seem likely to be in excess of our requirements. Money, although still plentiful, is hardening in value. Sterling Exchange is firm. Government Paper and Shares quiet.

MONEY.—The last return of the Bank of Bombay for the week ending on the 15th instant showed a reduction in Cash of about 22 lacs, the result mainly of an increased trade demand; and as exports are now steadily increasing, there can be little doubt that the value of money must now begin to improve. In the meantime the Bank of Bombays minimum is sufficiently above the ordinary market rate to render an advance in that quarter improbable yet a while; but looking to the fact that the Bank of Bengal in Calcutta have had to advance their rates one per cent. this week, and the general situation here an upward movement can be only a question of a few weeks.

EXCHANGE.—A considerable amount of private bills was placed last mail-day at 1-32d. over the quotations given in our report, but, although owing to the advance in Silver in London rates on the whole have since been firm, the actual extent of business has been comparatively small. We opened on Monday on the basis of 1s. 7 17-32d. for demand Bank and 1s. 7 13-16d. for 3 months' Credits, but during the day a further rise of 1-32d. in the former and 1-16d. in the latter was established. On Tuesday rates further advanced 1-16d., and Wednesday saw an additional rise of 1-16d. to 3-32d. This, however, was the highest point of the market at 1s. 7 11-16d. for demand Bank Bills and 1s. 8d. for Credits, as on Thursday the fact of Council drafts in London on the previous day having gone at 1s. 7⅞d. induced a reaction of 1-16d. To-day the tone of the market has been weak, and 1-32d. decline has been established in Bank Paper and practically also in private bills, although it is not actually quoted. Closing rates are:—Bank Bills on demand 1s. 7 19-32d., Telegraphic 1s. 7 9-16d., 3 months' sight 1s. 7 23-32; Credits, 3 months' sight 1s. 7 15-16d.; Documents, 1s. 7 15-16d.; Francs, 2·10⅝. For future delivery the Banks are more willing buyers than sellers at an advance of 1-32d. per month for the next two months, but the amount of private paper continues limited in the extreme, and the general view at the moment is unquestionably in favour of lower figures.

The latest quotation we have for Bar Silver from London is 51⅝d. per oz. equivalent to a shade over 1s. 7¾d. per rupee, but this practically exercises no material effect on exchange at the moment.

On Calcutta, the rate for demand drafts remains at 1-16 per cent. premium, but for 60 days' sight it is impossible to give a quotation. On China we still quote 60 days' sight Mercantile drafts at Rs. 219 per 100 dollars.

From Hongkong the latest quotation by wire for 4 months' sight bills on London is 3s. 8⅝d. per dollar, and from Shanghai 5s. 2d. per tael.

GOVERNMENT SECURITIES were quiet in the early part of the week at a slight decline in values, but hardened up again on Wednesday and Thursday, touching Rs. 100⅜ for Fours and Rs. 100⅝ for Fours-and-a-half. To-day, however, owing to weaker accounts from London, a drop of ¼ per cent. has taken place, the market closing dull at Rs. 100⅛ for Fours and Rs. 108⅝ for Fours-and-a-half.

SHARES.—The general feeling throughout has been quiet, and the extent of business done has been moderate. In *Banks*, Agras are unchanged at Rs. 134 and Nationals at Rs. 108, Bank of Bombays receded Rs. 2½ in the early part of the week, but have since recovered Rs. 1½, closing at Rs. 736½. In *Land* Companies the only change is in Colabas which are Rs. 5 lower at Rs. 880. *Press* Companies' shares as a rule have been devoid of movement almost the only change being in Mofussils, which have advanced to Rs. 375. *Spinning and Weaving Mill* shares rule quiet, but values have gone somewhat irregularly. A decline of Rs. 90 is quoted in Albert, Rs. 20 in Coorla and Dhurrumsey, Rs. 15 in Jewraz Balloo, Rs. 10 in Khandeish, and Rs. 5 in Morarjee Goculdas, National, Prince of Wales, and Sholapore. An advance of Rs. 50 is quoted in Alliance, Rs. 20 in Bhownugger Mills, Rs. 15 in Sassoon, Rs. 12½ in Empress, Rs. 10 in Bombay United, Rs. 5 in Khutao Macconjee, and Rs. 2½ in Mazagon. The demand for local Yarns being fairly active, the Mills at the moment are generally working to a good profit. In *Miscellaneous* Companies there are no special changes to notice. Bombay-Burmah Trading Co.'s shares are at Rs. 2,000, Treacher & Co., Ld., at Rs. 778 per share.

PIECE-GOODS.—There has been decidedly more doing in the bazaar this week, the clearances being generally estimated at about 2,500 to 2,700 packages. With the exception, however, of a partial advance of one anna per piece in 39-inch Shirtings there has been no improvement in values, and our level, even taking the advance in Exchange into account, is still considerably below Manchester prices. Stocks continue heavy, and considerable shipments have still to come forward to complete previous arrival contracts, so that any important advance is unlikely just yet; but there can be no doubt that the improved up-country demand on one hand, and the restriction for some time back of indent business on the other, is steadily improving the general position. It may be, as we have more than once remarked recently that the bulk of the arrival business for the season is over, but, however, that may be, the trade would be on a more satisfactory footing if sellers were in a position to obtain Manchester cost.

Of *Local* made Goods the sales during the week have been about 1,500 packages at an average of As. 8½ to As. 8 11-16 per lb.

TWIST.—In English Yarns there has been less doing this week, but stocks are now in moderate compass, and prices are unchanged. Local Yarns are in good demand, and about 2,200 bales have changed hands mainly for China at As. 7 5-16 to As. 7¾ per lb. for 20s.

METALS.—*Copper* is quiet with only a small business passing at unchanged prices. *Yellow Metal* is quiet at previous rates, but supplies being small, holders are firm. *Iron* is dull and difficult of sale, but there is no quotable change in values.

COALS.—For new arrivals there are several resales of speculative purchases offering, and for Davison's West Hartley Rs. 15-12 to Rs. 16 is quoted. Distant shipments, however, are still in request, and a steamer cargo of Davison's March-April shipment has been sold at Rs. 16-4, while for Cardiff there are buyers at Rs. 16-4 to Rs. 16-8 per ton alongside, with no sellers.

COTTON.—The home advices as a rule having been very dull in tone—especially from Liverpool, where Surats appear to be almost unsaleable—we have had weak and declining markets here throughout the week, only a small business has been done for export, and our quotations show a reduction of Re. 1 to Rs. 2 per candy in Old, and Rs. 2 to Rs. 4 per candy in New Cotton.

Arrivals have not increased on last week, but they are still keeping well ahead of last year, and in the course of another week or two when Broach and perhaps Dhollera will begin to come in, the gain on last year's figures will be rapid. Oomrawuttee is undoubtedly a large crop, and the quality is steadily improving, but Hingunghaut while keeping up pretty well as regards quantity is deteriorating daily in quality, and F. G. F. will soon be the best obtainable. Of Broach small samples have been received this week which look well, but it seems almost certain now that this growth will not equal last season, either in quantity or quality. Dholleras, so far as we can see, promise to be the best yield of all in every respect, and shipments will begin to go forward in another fortnight. Estimates of exports continue unchanged, the favourite figure being 850,000 bales.

The *Receipts* from up-country to date give the following comparisons with the two previous seasons:—

	1881.	1880.	1879.
For the week	19,201	15,870	12,462
Since 1st September ..	196,855	161,234	108,459
Since 1st Jan.	51,874	43,240	35,938

The *Clearances for Sea* since the departure of last mail have been 17,201 bales, making a total since 1st January of 28,566 bales, against 20,967 bales for the same period last year.

The following are to-day's quotations for full-pressed Cotton with the equivalents in Sterling, Cost, and Freight to Liverpool, via Canal, without commission:—

SEEDS.—*Linseed* remains steady with a fair business doing for export at Rs. 6-7 to Rs. 6-9 per cwt ready, and Rs. 6-4 to Rs. 6-5 for New Crop, April-May delivery. *Rapeseed* is quoted at Rs. 5-7 to Rs. 5-9 per cwt. ready, and at Rs. 5-13 business has been done in new Guzerat for April delivery. In *Gingelly* there is a fairly active business going forward at Rs. 36 to Rs. 39 per candy according to quality.

WHEAT is firm at Rs. 3.3½ per candy for ready Soft White and Rs. 28 to Rs. 30 for May delivery of New Crop.

TELEGRAMS.

LATEST NEWS FROM KANDAHAR.

(FROM THE PRESS COMMISSIONER.)
CALCUTTA, JAN. 21.

A telegram from Kandahar, dated 20th January, reports that private letters from Herat state that Ayoub's adherents do not know what to do, as his intentions vary from day to day. At one time he declares for renewing hostilities as soon as possible, and at another that he will make peace.

A large caravan has arrived from Herat, bringing, besides merchandise, about 200 camels for sale. More are on the road.

The column under General Wilkinson started to-day for Maiwand and Kushk-i-Nakhud, which it will reach on the 22nd. The report of its march has already had the effect of bringing in the chief of Zamindawar to Girishk to visit Sirdar Gul Mahomed Khan.

From Kabul there is no news of any sort. Ismail Khan, brother of Aubiar Khan of Taiwara, has arrived in Kandahar. Aubiar Khan is in the Hazara country.

The fine on the village which fired on our troops retreating from Maiwand has been paid up in full, with the exception of five thousand rupees, which will be levied on Kushk-i-Nakhud by the force now going out.

The weather is warmer, but still bright. Rain is expected at an early date, and is much required, though crops continue to promise well. The price of wheat is somewhat higher, but barely and maize continue steady at six and seven seers respectively.

ROBERTS AND COOK IN CALCUTTA.

(FROM OUR OWN CORRESPONDENT.)
CALCUTTA, JAN. 22, 0-47.

A championship match between Roberts and Cook for the highest aggregate of three games of a thousand, upon a Lazarus table, for a silver tankard offered by Messrs Lazarus and Co., value Rs. 1,000, has been won by Cook by 220 points.

THE IRISH STATE TRIALS.

LONDON, JAN. 20.

The case for the defence of Mr. Parnell, M. P., and his colleagues of the Land League, who are now on their trial for conspiracy, which was opened on the 13th instant by Mr. McDonogh, was finished to-day.

THE GREEK QUESTION.

In the House of Commons Sir Charles Dilke (Under-Secretary for Foreign Affairs), in reply to a question put, said that the proposed arbitration of the Great Powers in the Greek-frontier question had been abandoned. An active exchange of communications between the Powers, however, continues, in order yet to try and ensure a peaceful settlement, if possible.

THE DEBATE ON THE ADDRESS IN THE COMMONS.

The House of Commons have negatived amendments to the Address which have been brought forward by several other Irish members, and the Address in reply to the Royal Speech was unanimously adopted by the House this evening.

THE PERUVO-CHILIAN WAR.

GREAT BATTLE AND CAPTURE OF LIMA.

LONDON, JAN. 21.

Telegraphic advices from the seat of war in South America state that on the 17th instant the Chilian army occupied Lima after fighting two great and sanguinary battles with the Peruvians. The Peruvian loss in killed alone was seven thousand men.

Don Nicolas de Pierola, the Dictator of the Peruvian Republic, has fled.

MR. ADAM is going the right way to secure the lasting affection of the Madrasees. The local *Times* is "glad to hear that our new Governor is seriously inclined to remedy certain inconveniences imposed upon the public of Madras by, let us say, the narrow policy of his predecessor." For instance, the closing of the road through Government House compound, that caused so much indignation among Madrasees at the time, by no means meets His Excellency's approval ; and he has already called upon the proper departments for reports showing the best and cheapest mode of re-opening the road. The Governor is also known to be anxiously enquiring into the cost of other improvements that would be very welcome to the public of Madras."

AT Amritsar, on the 14th instant, the Mahomedans of the city, to the number of about 15,000, met at the *Idgah* to offer up prayers for the recovery of H. E. Lord Ripon. The *Idgah*, says a correspondent of the *Englishman*, is an open space, with several lines of trees planted longitudinally. At one end a large canopy was pitched. The sight, says our informant, was one to be remembered. The genuflexions were performed in so solemn and regular a way that an observer might have been led to suppose that the great body was worked by machinery. The prevailing colour of the clothing being white, the general effect was heightened. After prayer about 1,000 poor were fed in the mosque adjoining. Food was also sent to the orphanages, poor house, dispensary, and several other places in the city. The cost of the demonstration was provided from the funds of the Mahomedan society.

A CORRESPONDENT at Peshawur sends the Lahore paper the following statements :—Cabul affairs are again attracting attention. From all reports it appears that Turkistan has risen in arms against the authority of the Ameer. He has informed the Government that Hasham Khan has occupied Takht-i-Pul, the capital, and the small army the Ameer has sent against him has not yet reached its destination. Abdul Rahman has prohibited the public from discussing Turkistan affairs in the bazaars. Sirdar Wali Mahomed Khan has prepared an interesting petition for submission to the Indian and Home Governments, in which he applies for a jagir. The petition says that the Sirdar was invited by the Ghazis to be their Ameer, but he remained faithful to Government and did not accept the invitation, and that not a single man out of our whole army would have been left alive, had not this Sirdar joined and assisted us. He will shortly proceed to visit Taj Mahal and the Viceroy, with whom he has been exchanging friendly communications. No post has been established between Parachinar and Peshawur.

A CALCUTTA paper understands that the case of Falle *vs.* McEwen, which is practically to settle the dispute between the members of the Uncovenanted Service Family Pension Fund, as to the rates at which pensions shall in future be payable in England, is to be heard at the Calcutta High Court about the end of this month before the Chief Justice and Mr. Justice Pontifex, instead of before one judge, so that, if either party wish to appeal, they can do so direct to the Privy Council, and thus save the costs of one appeal.

A GREAT commotion has been caused in and around the village of Kaisree, not far from Amballa, in consequence of a wild animal, either a leopard or a tiger, roaming at large in the neighbourhood. The beast is said to have killed half a dozen people, besides a number of cattle, and is still wandering about.

THE *Celestial Empire* of the 16th December states that, according to the report current in "well-to-do Chinese circles," the Russian Government had within the last fortnight doubled the sum which it demanded of China as the price of peace. Rather than pay the money, it was said, China would go to war.

THE latest news from China states that "in the Hongkong opium market a moderate business has been done in New Patna during the fortnight at steady rates. New Benares has been more freely dealt in, the demand from the coast ports being good. In Malwa a small business has been passing, but at improving rates. At Shanghai the business in all varieties of the drug has been of a hand-to-mouth description, but rates have gone up owing to supplies being moderate."

THE project for connecting Orenburg with India by means of a railway is discussed in the *St Petersburg Gazette*. All patriotic Russians are bidden to scout the project, as one likely to ruin Russian commerce in Central Asia. "What we should do is, not to invite the English into our own homes, but to learn from them how to prosper in business. The principal article of trade which would be affected by the proposed line is cotton, for which Russia now has to pay 70,000,000 roubles to Liverpool ; but cotton is now being cultivated in the Russian provinces of Ferghanna, Tashkend, and Sarafshan, and in the neighbouring khanates of Khiva and Bokhara. This industry would be greatly developed by the construction of a railway to Tashkend ; and Russia will thus obtain, in her own country, cotton at a lower price than if she were to import it even direct from India, especially as the Russian Government has just set aside an extensive district of 230,000 dessiatins in the steppe of Mil, between the Kur and the Araxes, in Trans-Caucasia, for the exclusive cultivation of cotton. As to rice, pepper, etc., it would be more advantageous to Russia to import these articles in Russian ships from Shanghai, Singapore, and Ceylon than by means of a railway from India."

THE Egyptian Minister of the Interior has published statistics relating to the navigation of the Suez Canal, from which it appears that the total movement during the first nine months of the present year in the two directions from north to south and *vice versâ* was 1,534 vessels, of an actual tonnage of 3,318,810. The crews and passengers on board these 1,534 vessels numbered 101,119. The British flag occupied the first rank in the movement, with 1,210 vessels out of the total of 1,534.

IN view of the present position of affairs between Greece and Turkey, as notified by Reuter, it is interesting to note how matters stood at the time the last mail left England. We read that from Athens it was announced that M. Comoundouros, in reply to a question from a member of the Chamber, has stated that the report that the Greek Government was willing to come to a settlement with the Porte by means of arbitration was "entirely false" The Government did not intend to recede an inch from the position which Greece had gained at the Berlin Conference. The *Standard's* correspondent at Athens sends a report of a long conversation with Colonel Grivas, who has several times been Minister of War, and thoroughly knows Turkey and the Turks, and according to his officer's opinion war is an unavoidable necessity for Greece if Turkey refuses to obey the behests of Europe. The struggle will, he believes, be a severe one ; but in the end Greece, "under the succour and protection extorted from Europe," will take possession of the territory which she claims. Meanwhile, according to the Constantinople correspondent of the same paper, preparations for the war were going on with extreme vigour in Turkey. All the provincial revenues were ordered to be paid direct to the War Office ; horses were being bought ; the Finance Minister had been replaced by a soldier ; two ironclads lying at the Golden Horn were ordered to be fitted for sea. "Turkey has been slow to believe the situation would end in war, but is making up for lost time." The Vienna correspondent of the *Daily Telegraph* says that 8,000 additional Turkish troops were to join the 15,000 already on the Greek frontier, and war marterial was being hastily collected at Volo and Larissa.

Truth has the following upon the Irish question :—A lawyer, said Burke, can no more understand a State trial than a mouse the gestation of an elephant. And this inability of small creatures to understand great matters seems to affect the Conservatives in regard to Ireland. How is law to be enforced in a country where almost all are banded together to resist it, unless by a military occupation ? How possibly can Ministers hinder a confederation of millions to redress wrongs, the existence of which is admitted ? No one can doubt but what, rightly or wrongly, the Land League commands the support of the vast majority of Irishman. We must, then, face the difficulty of putting down not this or that Land Leaguer, but the population of the island. This can only be done by ruling it as Russia has ruled Poland. The alternative is to tide over the present crisis, and, as soon as possible, to pass such remedial measures as will, in all probability, satisfy the great majority of Irishmen. Two measures are obviously necessary :—a drastic alteration in land tenure, giving to the occupier of land practical proprietorship ; 2, such local self-government in each province or county as will make its inhabitants themselves responsible for their future. Every social fabric is artificial ; each one is dependent for its existence either upon the assent of the majority of those whom it affects, or upon extraneous force. It must, therefore, come to this : either we must suspend all laws securing individual liberty in Ireland, and garrison it, or we must accept the doctrine that in matters solely affecting Ireland Irishmen must be the best judges of what is to their advantage. There is no third course, and the sooner that we realise this the better it will be for us.

THE public is periodically horrified by revelations of the misery endured by emigrants on English passenger ships ; but, to judge from the declarations which have lately been published by steerage passengers on steamers sailing from Havre and Antwerp, the worst English passenger ship is a paradise compared with some of the foreign steamers. The *Switzerland*, for instance, which sailed from Antwerp on November 20 for New York, appears to have been a perfect pandemonium. She had 430 steerage passengers on board, mostly Germans and Swedes, and she was eighteen days in crossing the Atlantic. There was no separation between the sexes ; there were only three lights in the steerage at night ; and in the semi-darkness the mixed multitude gave way to such brutal immorality that, in the words of one of the passengers, "the ship was nothing less than a floating hell." The people were crowded together like hogs in a pen. The steerage was never cleaned, but remained foul and filthy throughout the voyage, the accumulating abominations emitting an effluvium "beyond belief." Two gallons of water were served out for the four hundred passengers to wash with, and pure drinking water was unattainable, Most of the crew were shipped drunk. One of them was so nearly murdered by the boatswain that his life was despaired of. Two Italian stowaways were stripped naked and exposed to the biting wind for hours on deck. The sailors were more than once on the verge of mutiny. These horrors of the Atlantic steerage recall memories of the Middle Passage.

COLD AND RAINY WEATHER AT ADEN.

(FROM A CORRESPONDENT.)
ADEN, JAN. 11.

THE Aden that most people are familiar with is the burnt, dried-up spot that has been so often described, and on which a fierce, pitiless sun beats down from early morn until night. For the last ten days, however, the sun has only shone at rare intervals, and a cold wind, accompanied with mist and occasional showers of driving rain, has rendered warm English clothing not only pleasant, but almost necessary. There can be little doubt that the climate of Aden is improving year by year, whatever the cause may be ; and the almost entire absence of sickness among the troops seems to prove beyond a doubt that though Aden may not be a particularly pleasant place to live in, it is not an unhealthy one. When the thermometer is only 74, no one can grumble at the heat. There has been a great deal of cricket here lately, but the rain having made what is called "the Isthmus" considerably muddy, Steamer Point is the only place where play can be held. Aden is altogether most gay just now, and besides some very excellent theatricals which are coming off next week, the bachelors are giving a grand ball, which will probably be the event of the season. Other news there is none of any sort.

STAFF CORPS PENSIONS.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—"Justice" complains in your issue of the 11th instant that no rules have been framed for the Indian Staff Corps, nor is it in contemplation to frame any. I have long ago come to the conclusion that no such rules will be framed till the State is rid of all those officers of the Indian army who are entitled to off-reckonings, and this will not happen till about 1888 ; and then probably the draft pension rules that appeared in the *Madras Mail* about two months ago will be sanctioned for officers then in the service. The present bonus system will be continued till the year above mentioned, when all the officers entitled to the off-reckonings will have been disposed of. Compulsory retirements are impossible in respect to these latter officers, but not so with those who cannot claim off-reckonings ; so if Government frame any rules at all now, they must have two sets of rules, which would be obviously inconvenient. I am entitled to off-reckonings, though I shall not wait on in the service to claim them, but of course I do not intend to go till I reach my twenty-eighth year of service, and then I shall accept the bonus offered. Meantime I am tired of the service and would quit it now if I could ; but as the rules of retirement now in force do debar me from going, I must, *nolens volens*, serve on till I have got what I want, viz., the pension and the annuity that will be allowed me after the completion of my twenty-eight years. I think it would be a wise step, however, on the part of Government if they would allow *all* field officers to come within the provisions of the bonus retiring system, *i. e.*, all who are entitled to off-reckonings, the annuities of course being calculated according to length of service from twenty years and upwards instead of twenty-eight and upwards.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—Will any Dutchman kindly say whether BOER should be pronounced *Boo-er* (stormonth), *Boor* (deriv.), *Bare*, *Behr (quasi* Fr. *beur)*, or BORE ?

P. S.—I am inclined to believe that the *Behr*—as-if-you-were-going-to-be-sick sound—is the right one, but authorities differ.

ENGLISH COMMERCIAL AND FINANCIAL LETTER.

(FROM OUR OWN CORRESPONDENT.)
LONDON, DEC. 31.

THIS week is so much absorbed by the winding up of the year's transactions, striking balances, and preparing trade-circulars which recall in more or less clear and instructive a manner the business of the twelve months, that there is a want of new and freshly interesting matter wherewith to fill a purely commercial letter. One point, however, I may mention, and that is the very general feeling of hope and confidence with which the business world looks forward to next year. Although the political outlook is the reverse of cheering, both on the continent and at home, and serious trouble in South Africa has come to add to the gloom created by the depiorable state of things in Ireland, business men feel pretty safe as to the immediate future of trade. One reason of this is the extraordinary prosperity of the United States, which, it is believed, cannot but react on this country ; another is the failure of so many predictions as to dear money and accompanying crisis with which the business world has been surfeited for months past. It is easy and natural enough to argue that if a succession of bad harvests, which placed us under an unprecedented dependence upon America, has had no worse effect than an average rate of discount of only 2½ per cent. all the year round, even another defective harvest cannot have any very deadly consequences, while a good harvest, which is always possible, will benefit us, of course, in many ways. The "scare" of a bullion drain has always been very effective in commercial circles here, but if with such an unusual balance of trade against us the entire loss of gold at the end of a trying year is no more, on balance, than three millions sterling, it is difficult to suppose that another similar year will at the worst do more than raise the rate of discount ½ or 1 per cent. above its present moderate level of 3 per cent. There is, of course, nothing terrible in a rate of discount of 4 per cent. A few years ago 5 per cent. was considered a fair, prosperous minimum, and on one Lord Mayor's day only seven years ago the bank rate touched 9 per cent. Another thing which inspires a large amount of confidence is the absence of failures. Nothing dispirits and unnerves commercial men more than a shaking of the fabric of credit by frequent suspensions. There is no fear of these at present, and the assurance felt on the subject would not exist unless both banks and mercantile men themselves, in their several trades, were well aware that the manner in which business has been conducted for some time past gives reasonable certainty that it is sound. Much of it is now conducted on a cash basis, or at least the credits are so much shorter than they were some years ago that traders are not tempted to speculate to anything like the extent once done. What would happen if traders grew so suddenly rich, fat, and prosperous as to forget the lessons taught by years of depression it is not easy to say. Doubtless they would wax over-confident and sanguine again, foolishly speculate, and lose much money ; but that danger, for the present, looks remote. There does not seem to be the faintest chance of traders here being blessed with a super-abundant pressure of business in the "leaps-and-bounds" style. What is doing may be, and probably is, sound enough, but there is not too much of it.

The reports of the growing American cotton crop are still of a chequered and doubtful character. The weather in the early part of this month improved in the Northern States, but not much in the South, where heavy rains are still a subject of universal complaint. Where the cotton is so late in being gathered wet, of course, increases the difficulty of the task enormously, besides deteriorating the quality of the crop ; and in great part of the South far too much cotton appears to have been grown for the labour available. A Georgian correspondence speaks of last month as the worst picking one in local experience, and want of labour is a general complaint. The *New Orleans Democrat*, a journal with large connections in the cotton districts, reports of Texas, Arkansas, Louisiana, and Mississipi that a "very large proportion of the crop" remains ungathered in the fields. This arrear is ascribed to three causes : scarcity of labour, the unfavourable weather in November, and the unusually large acreage sown and abundance of the yield. From nearly every county in Texas comes the same complaint on this head. In Louisiana the labour, both of men and boys, is in urgent demand to save the sugar crop, which is reported to be in danger from its enemy, frost, alternating with warm wet weather. In short, these reports show that the southern farmers and planters sow more than they are able to gather under the present supply of labour, except in that favourable weather for harvesting. It is, however, obvious from these statements that there may, after all, be a large yield of cotton, quite 3,000,000 bales, but the figure to which Neill Brothers have expanded it in their estimate, because there is no want of cotton more or less deteriorated. Labour is the main requisite ; and thus it may be that, somehow, all will be safely housed, so that the falling off will be chiefly in quality.

I hear from Egypt the same glowing accounts of material progress to which we have been accustomed since the new *régime* was established. This year's crops have not been quite so bountiful as last year's, but for all that it is found possible to frame an honest budget showing a clear surplus of over £100,000, after allowing for payment of all the interest on the debt as settled by the Law of Liquidation, and after allowing quite enough for the expenses of administration. Moreover, there is a surplus of funds previously provided by the sale of Khedivial property, which is available for the purchase of bonds of the Unified stock in the open market, and thus the principal of the debt will be gradually redeemed, while the interest is punctually paid. It is a curious comment upon the new state of things that the very persons who before croaked over the hopeless misery of the fellah and the absolute necessity of plundering the landholders for his benefit now complain of his being too well off. At least it is actually pointed out as a grievance by a resident Englishman that the European capital now sent to Egypt for employment in loans to cultivators has had the effect of quite corrupting the purer instincts of the fellah. In the good old days, when he had to pay 20 or 30 per cent. for what he borrowed, and when "the stick" was the general remedy for any unfulfilled obligation of his, he was careful to borrow as little as possible. He never could get much into debt, and he was always submissiveness and docility itself. Now, however, that he is offered loans at 6 or 7 per cent. he takes them faster than he wants them, and is thus running into debt to a dangerous extent. Moreover, he is quite "cocky," and does not seem to care for his risky position. But if these are evils, they will soon right themselves. The English and french companies that lend money to the Egyptian fellahs are not at all the persons to neglect their own interests. Credit abused will be promptly withdrawn, and the new law-courts offer ample facilities for enforcing payment of debt, or proceeding to a foreclosure of the mortgage. Apprehensions on this score may be summarily dismissed. As bearing on the improved position of Egypt, I may single out for mention the way in which the Rothschilds are identifying themselves with its interests. In addition to the State Domain Loan, they bought the whole unissued balance of the Railway Preference stock, about £1,500,000 ; now they have gone a step further and arranged to take over from the Paris Credit Foncier the entire mass of Unified bonds which it has held so long, and which has been weighing upon the market. This very significant step had the effect of at once raising the price of the stock 3 per cent., and it is not likely ever to fall back. In fact, so much has the 3 per cent. credit of Egypt risen that an investor cannot now get more than 5½ per cent. by purchasing any of its stocks. The future of Egypt is, of course, still what it has always been, very much a question of a bountiful Nile ; but the irrigation which is now being carried out by the aid of cheaper money and European engineering skill will very much lessen even the dangers of a low Nile.

The India 3½ per cent. loan, which a little dropped out of sight last week, has again come in demand, and is now quoted at 104⅛. As soon as we are fairly in the new year a rise may be looked for under the sure influences of investment buying and the comparative scarcity of all really sound stocks. The only other 3½ per cent. stock in the market is Metropolitan Board of Works Consols, and it is 2 per cent. higher than the new Indian loan, yet few investors would say that India is a more doubtful security for debt than the metropolitan ratepayers.

Two new Atlantic submarine cables are really about to be laid after numerous false alarms, and the projector of them is no less a personage than the notorious Amerian speculator, Mr. Jay Gould, who has guaranteed the capital to make them. His interest in the matter is this. He controls a powerful telegraph organisation in the States, the principal rival of which is an older organisation which has a contract with the present Anglo-American Telegraph Company to carry and deliver all European messages. This arrangement makes the existing Anglo-American Telegraph Company a strong monopoly, and a good many of the American business men have chafed under it and desired an independent line. Mr. Jay Gould appeals to this sentiment, and also serves his own interests, which require the absolute use of one, if not two, submarine cables, by laying two entirely new ones. Mr. John Pender, M. P., the chairman of the Anglo-American Company, endeavoured to buy off Gould by offering him the exclusive use of one of the present cables, but the offer came too late. The new cables will, I daresay, be laid some time next year ; they cannot, however, pay unless the charge for transmitting messages is kept up to very nearly the existing tariff of 3*s.* a word. Still a permanent rate of 2*s.* a word may perhaps be secured, and with that the American messages to or from Europe, and to or from the East through Europe, will be considerably increased in number.

THE EXTRAORDINARY CONSPIRACY AT KOLHAPUR.

(FROM OUR OWN REPORTER.)
THIRTEENTH DAY, JANUARY 19.

KUSHUBA BIN MAHADOO, Patel of Shirgaum, Kalwadi, age 40, said.—I know Rambhut, Tatia Kochage, and Narayenbhut. I came to Rambhut's house before the full moon in the month of Bhadrapad. I was accompanied by three men from Kaneri. Two men from my village came to Kolhapur to the bazaar. I went to Rambhut's house, as Babaji Haval dar, one of my companions, asked me to accompany him there. The conversation that took place there was this. Rambhut asked Babaji Havaldar to collect some men for him : upon which the Havaldar asked the reason for getting men. Rambhut replied that he was going to raise an insurrection. Babaji asked the place where the rebellion was to take place. He was told in reply that it would be at Dessayi's Wadi (that a dacoity was to be committed ; the Europeans were to be murdered, and a Bawa, called Chima Sahib Maharaj, was to be placed on the throne. The Havaldar consulted us as to what steps he should take at this time. We said that we could not undertake such an enterprise. It was getting dark, so we got up, and were on the point of starting to our village ; but in the meanwhile we were given food, and so we passed the night in Rambhut's house. The food was served to us by another man, by Rambhut's orders. The next morning we went to our village.

Cross-examined.—After going to my village I did not divulge this conversation to any one. Tatia Kochage did not come there while we six were at Rambhut's house. I and Jairam came together to Kolhapur when sent for by the chief police officer. We two did not go to the house of Babaji Havaldar's son when we came from Shirgaum. We were taken to Shekrawar chawadi, in Shekrawar pett, on the road to the river. On the very day we came we were examined. We came to Kolhapur at 10 in the morning, were examined at 12, and ordered to go away. Jairam was the first to give his evidence, and after him I gave mine. From the time we left Shirgaum till we came to Kolhapur we were together ; but after our arrival here Jairam left me, as he was called to give his evidence. He was not called to go any where before he gave his evidence ; the same was the case with me. After our examination we went and stopped at the house of Eshwara, son of Babaji Havaldar. I saw Babaji Havaldar on the way when we were going to give our evidence, but he did not speak to me. I again saw Babaji Havaldar at the house of his son, when I came back after giving my evidence. In his son's house, too, Babaji did not say any thing to me. I cannot remember if Babaji said any thing to Jairam at the house. I stayed at the house of Babaji's son till I was examined before the committing magistrate. Jairam also lived with me for the time above mentioned.

Appa bin Aba Savat, caste Maratha, age 40, occupation agriculturist, residence Kaneri, petta Karvir, another of the men who accompanied Babaji Havaldar to Rambhut's house, gave similar evidence.

Bhiva Kom Naikeo Pawar, caste Mahratta, age 75, no occupation, residence Kolhapur, said :—I know Rambhut, Khyru Vullad, Rambin Tukaram, Naravenbhat, Jagru Bhairu, Vithu Jasuda, Krishna Mhatogda, Shripatrao Khanwalkar, Rambhut Bhimbhut, and Bala Sonar. I live in a room in the verandah of Bhaoo Bhut's house. I there saw all these ten accused. They came regularly to Rambhut's house during the last five or six months. I have used to practise sorcery ; he generally came to Rambhut's in the morning to carry on the work of sorcery, and sometimes the other nine accused used to go to him. Many other people were in the habit of coming to Rambhut's house, but I do not know them. Rambhut used to keep his door open late at night, and whenever I shut it he became very angry with me. I never went upstairs, so I do not know any thing about their frequent meetings. Further than that they used to come there for the purpose of getting charmed ashes, &c. I saw Vithu once bring a gun with him to Rambhut's house, a fortnight before he was arrested, and I asked him the reason for his bringing a gun there. He answered that the gun was intended for shooting birds. Rama Mali used to live with Rambhut. I heard Rambhut tell his comrades that he would get heaps upon heaps of money, up to the ceiling. When I heard this I went to Rambhut's cook, to learn the meaning of it. Ganu said that Rambhut was to amass money by alchemy. Bhaoo Bhut warned me at that time not to go there, because he said I should have hair torn from my head if I did so.

Cross-examined by S. P. Bhide.—I never saw any other man than Vithu bring any weapon. He, accompanied by Ramjan, brought a gun at 10 or 11 in the morning. I at that time was pounding my rice. I did not see Shripatrao bring any weapons. I have never heard any of the accused I above mentioned talk about murdering the Europeans and raising an insurrection. Rayats from Rodoli, Padal, Shinganapur, and Pungoo and Sangawada were in the habit of coming to Rambhut's house. Rambhut holds inami lands in these different villages. I have not seen with my own eyes any one carry any weapons from Rambhut's house.

By the assessors.—A Brahmin boy used to come to Rambhut, but I do not know his name or what he had on for his head-covering. This boy came from time to time for about a fortnight. He used to dine with Rambhut. He came there to perform Anoosthan (a religious ceremony to obtain success in an undertaking). This boy was in the habit of coming to the house two or three weeks prior to Rambhut being arrested.

The Commissioner is further in communication with the Public Prosecutor to advise him whether any legal steps can be taken in the matter.

APPEAL AGAINST WHEEL-TAX.—Yesterday before Mr. C. P. Cooper, Senior Presidency Magistrate, the appeal of Naron Veerjee filed against the Municipal Commissioner for the levy of wheel-tax in respect of four buggies and eight horses owned by the appellant, was called on for hearing. The appellant was charged for the first two quarters of 1880 on these conveyances Rs. 132, which he declined to pay on the ground that he had not used them at all. From his evidence it appeared that he had the buggies in his possession during the first quarter of that year, and that he broke them up soon afterwards. At the suggestion of the magistrate, a compromise was accepted, half the amount of the tax to be refunded to the appellant. Mr. Cumroodin Tyebjee appeared for the appellant ; Mr. Boevy, instructed by Mr. Eduljee Rustomjee Reporter, for the Municipality.

THE G. I. P. RAILWAY AND THE GRAIN-MERCHANTS.

THE following correspondence has passed between the Chamber of Commerce and His Excellency the Governor regarding the sudden and arbitrary action of the G. I. P. Railway Company in increasing their grain rates from stations in the Central Provinces to Bombay. From this correspondence it will be seen that His Excellency will receive a deputation of the Chamber on the subject in the Secretariat at noon to-day.

Chamber of Commerce, Bombay, 21st January, 1881.

To the PRIVATE SECRETARY to His Excellency the Governor of Bombay.

SIR,—I am desired by the Committee of the Chamber of Commerce to bring to the immediate notice of His Excellency that the G. I. P. Railway Company propose to increase, from the 24th instant, their special grain rates from the stations in the Central Provinces to Bombay.

As this sudden and arbitrary proceeding on the part of the railway company is calculated not only to affect most injuriously the export trade of Bombay, but also, by heavily increasing the cost of food-grain, the interests of the general public, the Committee would earnestly urge upon His Excellency that a telegram should be despatched to the Secretary of State for India strongly advocating that no change should be made for at least six months, and until the question has been more thoroughly considered.

The Chamber also proposes to send the following telegram to the Board of Directors of the G. I. P. Railway Company :—

"Proposed sudden increase of grain rates will seriously disturb trade. Strongly urge postponement any change during this season. Traffic prospects most favourable."

Should His Excellency require any further information as to the unorganised nature of the case, the Chairman of the Chamber and other members of the Committee will be happy to wait upon him, this afternoon, at any hour that may suit His Excellency's convenience.—I have, &c.,

J. GORDON, Secretary.

To the SECRETARY, Chamber of Commerce.

SIR,—With reference to your letter regarding the increase in the grain rates on the G. I. P. Railway, His Excellency the Governor desires me to say that, if the Chamber has not already telegraphed to the directors, he will be very glad to see the deputation, but thinks it will be well if the Agent, G. I. P., is present at the same time. His Excellency would propose therefore to receive the deputation at noon to-morrow, and if you will let me know whether this hour will suit the deputation, His Excellency will invite the Agent, G. I. P., to be present at the same time.

Kindly reply by bearer.

Yours faithfully,
C. G. W. MACPHERSON.

Secretariat, Jan. 31.

Bombay Chamber of Commerce,
21st January, 1881.

To the PRIVATE SECRETARY to His Excellency the Governor of Bombay.

SIR,—In reply to your letter just received, I am desired to state, for the information of His Excellency, that the despatch of the proposed telegram to the Board of Directors of the G. I. P. Railway Company has been deferred, pending the receipt of His Excellency's reply ; but, as it is of the greatest importance that the subject should be reconsidered by the Board of Directors to-morrow at latest, and, if possible, a postponement of the new grain rates be secured before it can come into operation on Monday morning, the Chamber is anxious, unless His Excellency sees any objection to it, to despatch the telegram without delay. This, it seems to the Chamber, would not in any way lessen the great importance of a telegraphic communication of the Chamber's views by His Excellency to the Secretary of State, and, with that object in view, the deputation will be happy to wait upon His Excellency at noon, or any earlier hour, to-morrow, when the Agent of the G. I. P. Railway Company might be invited to be present.—I have, &c.,

J. GORDON, Secretary.

A LARGE meeting of grain and seed-merchants was held yesterday evening to consider what steps should be taken in regard to the increase of rates in the carriage of grain and seed notified by the G. I. P. R. Company. Mr. Moolji Jewraj was called to the chair, and explained the object of the meeting in a few words. A memorial to be sent to Mr. G. A. Barnett, the agent of the G. I. P. R., was read. The memorialists stated :—

That your memorialists have for many years past been in the habit of purchasing large quantities of grain and seed up country, which have been brought to Bombay by the G. I. P. Railway. That the contracts in respect of the greater portion of such purchases are made during the last two months of every year, and your memorialists then make such arrangements for the reception and shipment of the grain and seed as circumstances may require. That prints of a notice giving the particulars of the intended increase of rate were obtained from the Traffic Manager's Office on the 18th January. This increase raises the cost price of grain and seed in Bombay brought here by the G. I. P. Railway as much as from Re. 1 to Rs. 3 per candy ; so that if the cost of carriage is increased as proposed, there will be an addition of nearly Rs. 5 per candy upon all wheat, and seeds brought by the G. I. P. Railway from many of the large stations in the grain and seed-growing districts—jowary, for instance, is now quoted at Rs. 14 per candy, in Bombay, Rs. 6 being paid for freight ; by the new rates the freight would be about Rs. 11—almost double. That while the new rates would affect your memorialists and make them losers upon their contracts for the approaching season, instead of gainers. The loss to some of your memorialists, if the new rates are enforced, will be enormous, and the whole loss may be judged of by informing you that the quantity of grain and seeds already sold for delivery in Bombay during this season between January and May is about six lacs of candies. Your memorialists protest against the increase of rate as a serious blow to the grain and seed trade of Bombay, and they complain, in particular, of its sudden increase at the beginning of a season, when it is known that large contracts are already made. They respectfully submit that no increase of rate should be made which in such a manner would enable the merchants conveying goods by the G. I. P. Railway to make corresponding allowances and arrangements ; and that as it is quite too late to allow of such being done this season, the new rates ought not, your memorialists respectfully submit, who are large supporters of the railway, to come in force until the close of this season, viz.—some time in June next. Your memorialists would point out that this is not a question affecting the private transactions of a few individual merchants. The sudden and unexpected increase in rates affects the whole body of native grain and seed-merchants in Bombay ; it affects many influential European firms who deal largely in grain, and it affects them in such a way that it cannot fail, not only to cause serious loss to individuals, but to upset the whole traffic in grain during at least the coming season, and probably to cause serious derangements in the export trade of this port. The dealings of several of your memorialists are on so large a scale that, if the contemplated increase in rates is insisted on, they will be compelled to break their contracts and close their establishments, and thus the grain which they would import to Bombay during the coming season would probably be diverted into other channels—a result which would be disastrous to your memorialists and injurious to the interests of the railway and of Bombay shippers. Finally, your memorialists venture to urge upon you most strongly the propriety of at least postponing the proposed increase in rates for such time as may be necessary for a full enquiry to be made into the effect which such an increase at the commencement of the season would have on the prosperity of Bombay and of a not unimportant section of its inhabitants.

The following resolutions were then carried unanimously :—

It was proposed by Mr. Soorji Jeevandar, and seconded by Mr. Heerji Dewkand, that the meeting protest against the increase of rates in the carriage of grain and seed notified by the G. I. P. R. Company by advertisement on the 13th January inst., and announced to come into force on the 24th day of the same month, as calculated to seriously damage the grain and seed trade of Bombay ; that in consequence of large contracts for grain and seed being already entered into, according to the custom of the trade, it is unjust to Bombay merchants to increase the rates during the approaching season ; that no important change of rates should be made, except upon such reasonable notice as would enable merchants to enter into contracts upon a sure basis as to cost ; and that the new rates should not be insisted upon, will at once cause immense derangement in the conveyance of grain to Bombay, create numerous trade complications, and ruinous loss on the traders in this season, and tend to drive the trade from Bombay in future years.

Mr. Heerji Dewkand, in seconding the above, said the question of the increase of rates affected the masses, and was therefore fit to be taken up, not by any class of men, but by all the citizens of Bombay assembled at a public meeting. When railways were constructed it was said to them that the facility of intercourse thus produced would be of great benefit to the people of India in more ways then one; but the step proposed to be taken by the G. I. P. R. Company would be ruinous to the trade, injurious to the poor, and crushing to the ryots.

It was proposed by Mr. Lakhamsee Nappoo, and seconded by Mr. Bharmal Ratansee, that the memoial read to this meeting be signed and sent to the Agent of the G. I. P. R. Company, asking for a reconsideration of the question and the postponement of the new rates in the meantime.

It was proposed by Mr. Lalji Kachra, and seconded by Mr. Nursee Mowjee, that telegrams be despatched to the Board of Directors of the Railway Company in London, and to the Government of India, on this subject.

It was proposed by Mr. Heerji Dewkand, and seconded by Mr. Ladha Kachra, that a deputation be formed to wait upon H. E. the Governor to solicit his assistance in the matter, and that the Chamber of Commerce of Bombay be solicited to co-operate with the meeting in this matter.

It was proposed by the Chairman, and seconded by Mr. Devraj Rajgoojee, that the following gentlemen do form a committee to carry out the above resolutions :—Messrs Mooljee Jewraj, Laljee Kachra, Soorjee Jeevandas, Lakhamsee Nappoo, and Bharmal Ratansee.

After a vote of thanks to the Chairman the proceedings terminated.

BOMBAY, 8th January, 1881.

To the DIRECTORS of the JIVRAJ BALLOO SPINNING AND WEAVING COMPANY, *Limited, Bombay.*

GENTLEMEN,—Mr. Dwarkadas Vusonjee, *the Agent of the Jivraj Balloo Spinning and Weaving Company, Limited, having died, we, the undersigned* Shareholders, holding in the aggregate one hundred and more shares in the said Company, do hereby request you, *in pursuance of the 53rd Article of the Association* of the Company, to convene at an early date an Extraordinary General Meeting of the Shareholders of the *Company for the purpose of passing the following resolution*:—

I. That this Company desires to place on record its sense of the heavy loss sustained by the Company owing *to the premature death of the late Agent, Mr. Dwarkadas* Vusonjee, who was the founder of the Company, and who always used his best endeavours to promote the interest *and welfare of the Company.*

And for passing the following as special resolutions:—

I. That the firm of Dwarkadas Vusonjee and Co., of whatever members or member the said firm may *from time to time and for the time being consist* shall be the agents of the Company, and shall, under the supervision of the Directors, manage and direct the business of the Company, and as such agents shall receive a commission of one-quarter anna per pound on all yarn and cotton goods manufactured and sold by the Company; and also a commission of two-and-a-half per cent. on the proceeds of sale of all materials manufactured from wool, jute, silk and other fibres and sold by the Company.

II. That there shall be a Director *ex-officio* who shall be a member of *the firm for the time being agents of the* Company. That clauses 88, 89 and 95 of the Articles of Association shall not apply to the Director *ex-officio*.—We are, &c., LILADHAR JAVERCHUND,
NEMCHUND GULALCHAND,
DINSHAW MANOCKJEE PETIT,
YULUBBAS JEJAM,
RUSTOMJEE NUSSERWANJEE KHORY,
WAGJEE KORJEE,
and 44 others.

NOTICE is hereby given that in compliance with the above Requisition an EXTRAORDINARY GENERAL MEETING of the Shareholders of the Jivraj Balloo Spinning and Weaving Company, Limited, will be held at its registered office, Nos. 67 (new) and 70 (old) Bazaar Gate Street, Fort, on SATURDAY, the 22nd January, 1881, at 4 p. m.

The Transfer Books of the Company will be closed from 20th to 22nd instant, both days inclusive.

By order of the Board of Directors,
RAMCHANDRA HEMRAJ, Acting Secretary.

Bombay, 11th January, 1881.

GRATEFUL—COMFORTING.
EPPS'S COCOA.
(BREAKFAST.)

By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well-fortified with pure blood and a properly nourished frame."—See article in the *Civil Service Gazette.*

PROVISION FOR OLD AGE COMBINED WITH A PROVISION FOR THE WIDOW AND ORPHAN.

EXAMPLE.

A CIVILIAN, European or Native, aged 20 next birthday, wishes to lay apart a sum of about THIRTEEN RUPEES a month in such a way that his savings will be securely invested until the time of his retirement from Service; and that should he die beforehand, a provision will be secured for his relations. By payment of a sum of Rs. 163-0-0 per annum (or at the rate of about Rs. 13-0-0 per mensem) as the premium for an endowment Assurance, he will become entitled to Rs. 5,000 on attaining age 55; and should he die before attaining that age—even after payment of only one year's subscription—the full sum of Rs. 5,000 will be paid to his representatives. [*Vide* Table III. of Prospectus.]

THE SAME PROVISION, IF COMMENCED

at age 25 would cost about	FIFTEEN RUPEES a month;
at age 30	EIGHTEEN RUPEES a month;
at age 35	TWENTY-ONE RUPEES a month
at age 40	TWENTY-EIGHT RUPEES a month;
at age 45	FOURTY-ONE RUPEES a month;

The rates for other Ages, also for Endowments payable at Ages 45, 50, and 60, and all further information, may be obtained on application Premiums can be paid half-yearly, quarterly, or monthly, at slightly increased rates.

There is an obvious advantage in effecting Investments of this nature *early in life*:—by delay the rate of subscription increases:—death may occur before the intended provision is made:—or health may fail and render the life ineligible for Assurance.
